My dear Mr. [unclear]

I have just received your letter of the 29th and am  
glad to hear that you are  
interested in the study of the  
history of the city of New York.  
I am sure that you will find it  
very interesting.

I have been thinking of you  
a great deal lately and wondering  
how you are getting on. I hope  
you are well and happy.

I have been very busy lately  
with my work, but I have  
managed to find some time  
to write you. I have been  
thinking of you a great deal  
and wondering how you are  
getting on. I hope you are  
well and happy.

Yours truly,

NEW YORK, 14 Jan'y 1884

Dear Sir -

Referring to the call you made on me a week or two ago - to a letter recd from Mr. Seely Poillon a few days since - and to an invitation to attend a meeting of the A. U. & A. Soc. to-morrow ev'g, I have to say that it is more than probable I shall have to be in Philadelphia on some business to-morrow ev'g; and that while I appreciate your suggestion that I should attend a meeting before deciding what kind of membership to adopt, I have decided beforehand to become a Life Member, and herewith forward my cheque for fifty dollars (\$50<sup>00</sup>), for which I shall be glad to have your receipt.

I may very likely live out but a small number of the nine years required to cover that amount in initiation fee and annual dues, but the residue might be spent in worse ways after my death than in advancing the laudable aims of such an association.

Yours truly,  
A. J. Bloor -

The Small Stone Graves  
in White County Tenn

by  
( ) Jno H. Zillard. of  
Nashville Tenn

In October 1875 after a lengthy correspondence with Prof Spencer F. Baird, then assistant Manager of the Smithsonian Institute I was commissioned as a special agent by him to visit White and Putnam Counties in East Tennessee and investigate the remains of the Little Grave so common in those Counties and try to obtain for the Smithsonian Institute some good specimens of Pattern Bones &c. So acting under these instructions I left Nashville for Sparta the nearest point. Sparta the County seat of White County is one hundred miles East of Nashville situated in what is commonly known

as the spurs of the Cumberland Moun-  
 tains. I arrived on Monday, which being  
 County Court Day a larger number than  
 usual of County people <sup>was</sup> ~~were~~ in town  
 I took advantage of this to converse  
 with a large number in hope of  
 being able to learn of some locality  
 where the graves had not been disturbed  
 but was unsuccessful. In what is known  
 as "Hickory Bottom" near Shasta, the largest  
 number have been found but upon enquiry  
 I learned that most of them if not all  
 in this locality had been plowed up  
 The graves being a small rock vault  
 entirely beneath the surface and the

bottom lands in the valleys where there  
 are ~~most~~<sup>many</sup> numerous being exceedingly  
 fertile it has of course been in constant  
 cultivation. ~~As~~<sup>It</sup> was told the top rock  
 of these little graves or vaults dull &  
 and breaking the plow points they have  
 in plowing taken out the rocks and plowed  
 up the graves indiscriminately thus forever  
 destroying one of the richest fields for  
 Archaeologists. In the locality just mentioned  
 over three hundred have been thus destroyed  
 perhaps among these some of the finest  
 specimens have been ~~destroyed~~<sup>lost</sup>.

On Tuesday is visited the farm of Mr  
 Perry there are some half dozen

of Martha Mr Perry's father was one of the first settlers in this locality and he himself has lived on the farm where he now resides seventy nine years he told me he has plowed up at least one hundred but did not know of one that had not been opened. We visited together the place where the little grave had been plowed up it was a cultivated field in a beautiful valley, there were no indications of them to be seen by walking over the field but by taking a hoe and digging about four inches we came to the top rock which being removed disclosed the vault which I measured its dimensions were -

22 inches long 14 inches wide and 12 deep  
 One of the peculiarities of all these vaults  
 are ~~on~~ the rock with which they are constructed  
 being sandstone which is not found in  
 the valleys or coves but comes from the  
 summit of the mountains we opened six  
 in this field all of which had been opened  
 previous but could find nothing worth preserving  
 On Wednesday accompanied by Dr J. W. Sawyer  
 of Sparta I visited the farm of Mr Wilson  
 seven and one half miles south west of Sparta  
 and examined between twenty five and thirty  
 all of which had been previously opened  
 these were all similar to those examined  
 on Mr Sperry's place

with exception of one or two that had no rock or the bottom. Mr Wilson told us he has dug up a large number of them and has found several fine specimens of pottery which were filled with charcoal and the specimens were well shaped and contained figures or heads on them he has given them away or allows his children to play with them until they were broken up. had always found a skull with the bones of some small animal in all he had opened.

On Thursday again accompanied by Dr Sawyer I visited the farm of Mr Doyle five and one half miles south of Sparta known as Doyle's Cove.

This is the place where Judge Haywood  
 Author of "Haywood History, Natural & Aboriginal"  
 of Tennessee Knoxville Tenn 1823" made  
 his investigations Sixty years ago.

We found Mr Doyle well acquainted with our  
 localities in the Cove and he cheerfully  
 told us he would give us all the assistance  
 we needed and that there were two of  
 the grave in his yard ~~one of~~ which  
 had never been opened Owing to the  
 immense growth of weeds we were some time  
 in finding the exact location but finally  
 struck the top rock of what I shall designate  
 as grave number one  
 With a large knife I carefully removed

the earth and succeeded in finding a very fair specimen of pottery but in removing the contents of earth & charcoal it separated into three pieces it was hollow & shaped more of clay & shells with a projection from the rim into a rude female face nothing more was found except small pieces of bones which crumbled as soon as exposed to the air after emptying it entire I took the inside measurement of the stone vault which was  $21\frac{1}{2}$  inches long  $14\frac{1}{2}$  inches wide and 12 deep the rock that formed the vault were flat pieces of sandstone one piece being used for each side as ends and bottom they were irregular in their shape just as they are found

on the summit of the mountain. The top rock was much larger than any of the rest being sufficient to cover the whole vault. In grave no 2 at the side of no 1 which I opened with the same care I found almost a complete skull the sutures had separated but all parts were complete the lower jaw contained twelve teeth and the upper seven from these I would say it was ~~the~~ an adult on fitting the sutures the shell was of a small size but different from the shells of the ordinary mound Builders that I have seen the feathers not being so flat.

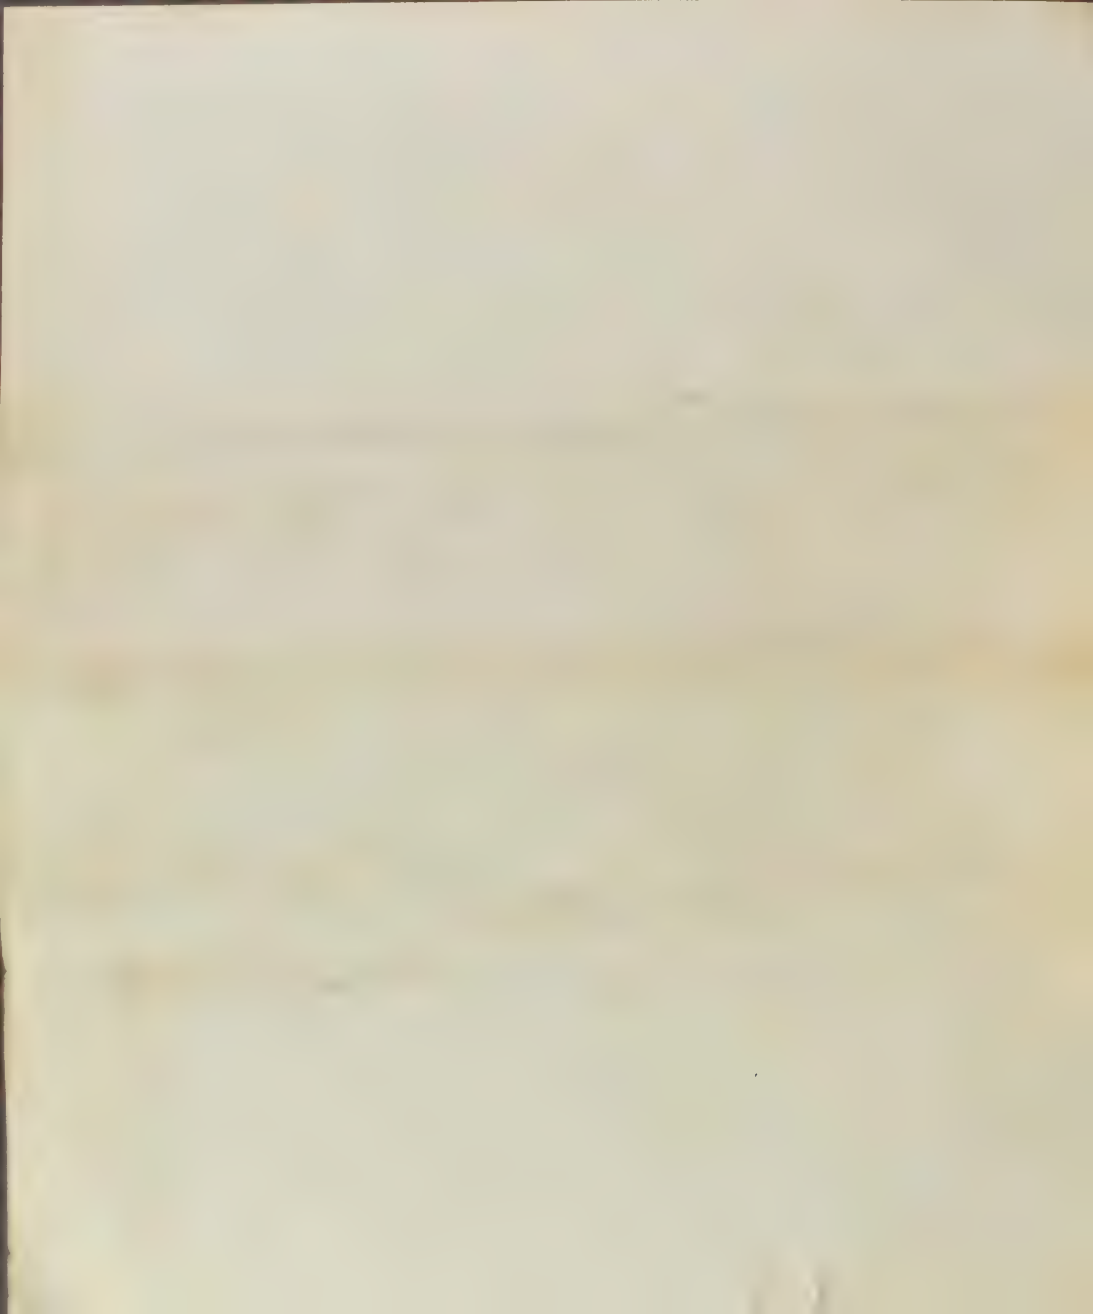

beside the skull mentioned I found a lot of small bones, the bones of some small animal and two shells pierced in the center. I found charcoal mixed all through the earth in this grave.

This grave differed from all the rest I opened by having a limestone head rock or a limestone rock at one end it measured 22 inches long  $14\frac{1}{2}$  wide &  $12\frac{1}{2}$  deep. A great amount has been written in regard to these little graves since Haywood first noticed them in 1823 but as yet very little has been found. Most writers claim them as mound builders.

//

but in no other places do we find  
only the head buried and in very  
few places outside of Tenn these small beonial  
Vaults. The specimens found I forwarded  
on my return to Nashville to the Smithsonian  
Institute the bones were turned over  
to the Army & Navy Museum where they  
now are I hope soon to be able  
to make a second visit to the  
locality as I have lately learned of  
a cave where I am told there are  
a large number of the little graves  
that have never been identified.

On looking and reading the Proceedings

observation: I find no acknowledgment before  
the Society of my donation of Books (!), only  
the acknowledgment of my donation of Pokans  
Page 1413 by Curator Chas. H. Knight, as perhaps  
Book 40. such as state reports and other  
original surveys &c. of the value  
to the Society (!) and if of any value and if  
wanted by the Society why not acknowledge  
my donation before the Society as is done  
in other cases.

I have not read the Ohio Ornithological

Dear Sir:

In reply to your letter of the 16<sup>th</sup> inst, making inquiry as to the preparation of a medal struck in honor of our late President. I beg to say that Mr Charles E. Barber the engraver of this kind, is recognized as an accomplished engraver, has produced some of the best work that has been presented to man's eyes.

I send you by to day's Express specimens of his work, which when you are through with you will be glad enough to return to me through Adams Express; and as I have no

grant are the company routes. There will be no cost attending the transmission.

Mr. Barber directs me to say, that he will prepare dies for the medal with the President's likeness on the reverse with a wreath on the obverse instead of plain inscription, \$300.00

The work would require 2 or 3 months for completion. From the time employed and the character of the work, I have no doubt that the price is reasonable.

I shall be glad to render any further assistance in relation to

the subject of your enquiry,  
And beg to remain,

Dear Sir

The Academy of the Sisters of Charity  
at Mt. St. Vincent (near Riverdale N.Y.) has an  
interesting collection of coins, ancient and modern  
and the Director of the Academy, Sister Maria  
has asked my advice about arranging them for  
convenient inspection. I have heard of cases in which  
the coins were arranged on rods so that they could be  
inspected on both sides by turning the rods over while  
still under the glass, and without opening the case  
but I have not seen such. It occurs to me that an

Dear Sir,

I do not know as I mentioned it but when I met you in New York I knew I was an advanced candidate for the sick list, and I reached home just in season for a lay out of two weeks in bed.

I find your circular on my desk of course I wish to possess any medallion memorial of my esteemed and lamented friend Prof. Arthur.

If not out of place allow me to suggest the plan of striking a larger number of medals at a less price, as a dealer of course am very fond of getting hold of a rare piece and I must admit that in the medal way I have sometimes had a considerable number.

My dear Poillon.

Your letter received and contents noted. I am desirous of holding another meeting of our committee as soon as possible and will then discuss the question of the Wyans. The last meeting, which you called at Hewitt's office, was a total failure, no attendance, nothing of course done. Will you please call another for Tuesday evening next at 7½ o'clock P.M. at our rooms and inform friend Hewitt to bring with him whomever can assist us in our deliberations. There seems to be some little

warmness in the matter, which  
is much to be regretted. Should  
the meeting be called, drop me  
a postcard.

Yours sincerely

Will you be kind  
enough to let me know  
just when you would like  
to have my paper - giving me

Dear Mr. Coillon,

In answer to your letter I desire to say that I have  
here the Lincoln dies & also some boxes and parcels  
left here when the Society moved. I am going to carry these  
things over to the Society Room and leave them a table  
carefully placed there. As to the Lincoln dies I do not  
know whether the Society Room in the University Building  
is damp or <sup>dry</sup> ~~wet~~. If it is a damp room you will have  
to treat the dies to some process to preserve them from  
rusting. As they are now (packed in Japanese silk  
bags) they are well in a dry place, but I think  
that for the University Building it will be good to  
coat them with something and also place some kind  
of cushion on them to prevent a blow to them.

In the certificate I must wait until some French  
(who is well in 'ed since several months) is up again before  
I can procure it.

I shall do my best to have some kind of paper  
ready for the 18th of March - at present I have no  
idea about the subject to treat. Perhaps I may say some-  
thing as to the importance of numismatics to the know-  
ledge of ancient history and Geography.

I do not see, among my acquaintances, who would  
have anything to exhibit there.

I shall try to persuade Mr. G. M. to become  
a member.

My Dear Sir:

Your favor of 25<sup>th</sup> ult is before me and noted. It is a reminder of my fulfilled duty. Stress of business for some years past has prevented my giving the attention to the pleasant study and pastime of former years, but my interest in natural history research is not less for this reason. I began this study when a boy, 20 years and more ago, and followed it closely for twenty years accumulating one of the finest, and in some respects the now finest collection in Michigan. This is better now, but I hope soon to be able to give the time and means to gathering another one. To me the collecting of

## Curator's Annual report

It is with great pleasure that your Curator announces the donations to the different branches in his charge have been the largest and most valuable as yet received in one year by the Society a total of no less than 939 separate pieces of coins and archaeological objects having been presented to it since the last annual meeting; there has also been another attractive feature added this year, viz the facsimiles of the ancient coins of the world purchased by subscription from the British Museum, these are beautifully prepared and will most assuredly be of great benefit to students of numismatology and of art. The Booth collection of Greek coins deposited with the Society has been of service to those members who consulted them, and the splendid donation by Mr J. T. Wood of the cabinet formerly owned by Mr Joseph Mickle, gives the Society the much needed space to more fully exhibit its treasures.

A list of donors for the past year is appended.

## Librarian's Report.

The additions to the library during the past year have been few and unimportant. The most interesting works have been secured in the exchange of duplicates. Among these are three volumes of The Catalogue of <sup>the</sup> Greek Coins in the British Museum, and Ainslie's Anglo-French Coinage.

The catalogue of our numismatic books has been ~~published~~ printed and is now in the hands of members. Its chief value lies in the index it contains to the numismatic articles in periodicals. Unfortunately we lack so many standard authorities that a mere list of our books would have been of little ~~interest~~ value. It is hoped that donations will be more numerous, now that members can readily see what is needed.

To enable us to secure the new publications as they appear, and now and then to purchase some of the older authorities, we need a permanent library fund, the interest of which only to be expended.

Encouraged by the success of our endeavors to obtain the British Museum Electrotype we shall soon make an effort to secure this fund, which should amount at least to two thousand dollars.

My dear Willm.

My health  
is so poor that I have been  
compelled to apply for a leave  
of absence from the college  
so as to start for the south  
on Saturday. I write to say  
that I am forced to resign  
my position on the Anti-Slavery  
National Committee. I desire  
you to inform our worthy president  
of the same and to request the  
abandonment of me as holding  
the position. I repeat exceedingly  
that my effort proved unsuccessful  
and trust my successor will carry  
the work to a satisfactory  
conclusion. Ever and please

find some photographs  
property of Prof. Cullum's niece.  
They will be useful to the  
committee. Please take extreme  
care of them as I have  
promised to return them to  
the family. Wishing you all  
success I remain

My dear Sir -

While I fully appreciate the kindness of your last letter I think it better for the interests of the affair in hand, that you should both hand in my resignation and wage it. I am here for an indefinite period, certainly I shall not return to the city before the middle of September, and such a delay may prove fatal to the success of the undertaking. I am sorry that the affair failed under my guidance. I hope another

committee will record it  
and that expeditiously. Explain  
the reason of my resignation  
and express my heartiest wishes

Issued Department April 7, 1881

Dear Sir

Your of March 27 came  
to hand this morning.

There are no doubt some  
paragraphs which might be  
omitted from my paper without  
materially injuring it for the purpose  
for which it was mainly written. This  
purpose was broader and more far-  
reaching than its mere reading  
before the Society of which I am  
it an honor to be a member. I

and practical conduct in view.  
I wished to lay the foundation of  
a science or study, even if it fit  
no further than the introduction of a  
much-needed term. But I could  
not coin a word without showing  
that I had the burden to coin it out of,  
or in other ~~see~~ words it was necessary  
to show its raison d'être especially  
in this day of needless neologisms.

I had expected to accomplish  
this end or at least to test the  
matter by circulating among our  
colleagues & professional men, my  
monograph or reprint from your  
writings. Some points that  
were introduced with special  
address to numerous who might  
be misled or misled. Thus,

# The Mint of the United States

PHILADELPHIA, PENN.,

Assay Department,

, 188 .

"I might omit the first two  
pages or two on the 'minting' not  
making" as not <sup>really</sup> essential  
to the basis of a new science  
of numismatology; & these are other  
portions to be treated with similar  
considerations.

But I do not know just  
what the Society calls an  
"abstract." I fear, we are misled  
in one paragraph by making a  
misrepresentation of the paper.

interested, or I can cut  
it down one, two or three fourths.  
But you may see that I  
desire for practical purposes to keep  
the paper substantially as I wrote it.  
If some such provisions as I have  
hinted at would satisfy the conditions  
of the publication I shall do it  
willingly. Otherwise I must request  
the return <sup>in substance</sup> of my paper as I have  
no copy of it in that form. I will  
then make an abstract of the  
chief points, presenting it, if you  
please, not as an abridgement but  
as an original paper, & I will  
retain the copy now in my hands  
of the original. I can see no objection  
to this. I was willing that my first subject  
should be born in the Society Hall, but I  
am not so fond of having it directed to me  
as to have it kept in the Society Hall.

As it now stands it will make just about 5 pages of your proceedings. Would you be willing to print it, if I agree to pay the cost of composition? Dear Sir:

I am sorry I cannot attend the meeting of the Ex. Com., N. Y. & A. S., on Monday evening, at which our Society's finances are to be considered.

My circumstances, (or lack of such, in a financial sense) leave me unable to offer any practical help at present; but I sincerely trust some way may be devised to place our Society on a firmer basis, and to relieve it from its present embarrassment.

Cannot a sinking fund be established, making a slight burden on all alike?

Perhaps this may be deemed too slow a process, to meet the present necessity;

and others, whose means, permit them to be liberal, may prefer some other and more vigorous method of getting out of the rut, leaving the sinking fund to smooth the way hereafter.

Please let me know the result of the meeting, and oblige

My dear Mr Pollon

A meeting of the  
Environ Medal Com. was  
held yesterday afternoon  
Present Miss Park, Miss  
Low & R. H. after full  
discussion it was resolved  
that with the present sub-  
scriptions amounting to  
\$250. that we request  
you as Secy of the Society  
& member of the Com.  
to order from Geo. Allen  
the dies for the Medal  
in accordance with his  
letter of date Oct 3/83 &  
Prof Hooft in which he  
offers to cast the dies for

\$40. or say \$500  
as it will take some 3  
months to make the  
die's we can before that  
time decide how many  
Medals we will need  
at present the 50 Subscribers  
medals will cost \$62.50  
or only \$12.<sup>50</sup> more than  
the funds in hand.

We should advertise in the  
Civil Journals & I am  
sure we could get orders  
for many more copies  
at \$5. If you will  
therefore prepare a  
letter ordering the die's  
and Photos etc of Abner  
& the design for Reverse  
it will put the matter  
in shape & shall

certainly lay & be on  
hand at Meeting of  
Ex Com. on Monday,  
Evening, & if they  
it is convenient for  
you to prepare the  
material we can  
send order by Wednesday

My Dear Mr Hewitt

Your favor 10<sup>th</sup> just to hand and I hasten to reply so that you will see how I stand in this matter. In the first place I am not a member of the Comtee, also if I were I should not want to decide upon an obverse,

To be frank I have attended to all the Secty's duties from Jan 1<sup>st</sup> at least as Mr Wright who was to help has been ill with inflamed eyes which prevented his attending to anything except his business. Therefore you know that I have very little leisure and do not feel like accepting any additional burdens.

I suggested to Mr Parish that when the Com was organized to make Mr Low its Sec, then I would not have anything to do with it

Dear Sir!

You will please  
be kind enough to convey my best thanks  
to our society for having elected me as a  
corresponding member for the year 1881 with the  
qualit of pleasure we are taking in your good  
will and to the interest of your society as  
well as to the pleasure in sending you with  
the post back receiving for a copy of my

My Dear Sir

I have been absent from  
home for a month - visiting  
in the South & only returned  
yesterday. Hence my delay  
in acknowledging receipt of  
your esteemed favour of the 24<sup>th</sup>  
in announcing to me my  
election as a Permanent  
Corresponding Member of the  
American Unitarian and  
Theological Society. Beg  
you will assure the Society  
of my hearty appreciation of

the additional honor thus  
kindly conferred upon me  
And also of my desire and  
readiness to serve the cause  
of human rights & theology,  
especially in connection  
with the Society, whenever this  
is in my power.

The two names embrace so  
many branches of each science  
and in some one of these I  
am daily labouring, as  
little from a busy parish  
life will permit, but it will  
afford me unusual pleasure  
some day to meet with the  
Society should I be in your  
city at the proper season.  
I am very glad to know that

my letter to the President some  
months ago interested any  
one about you for the comple-  
ment of reading it to the Anti-  
Slavery.

Have the honor to be  
Yours faithfully,

Dear Sir;-

I have taken the liberty of writing you to inquire whether the services of a stenographer would be of value to your Society, for the purpose of taking verbatim reports of discussions etc.

I have had four years practical experience as a stenographer and can refer to former employers. I am now in a very satisfactory position, but being desirous of obtaining some evening employment the coming Winter, I would be glad to place my services at your disposal any evening after 6 P.M. at a very moderate compensation.

I have written you thus early that I may be the first applicant for any vacancy you may desire to fill in the line I have mentioned, and if you will favor me with a reply at your leisure, I should be greatly obliged.

Very truly yours

My dear Sir,  
I have the honor to acknowledge the receipt of your letter of the 21<sup>st</sup> inst. in relation to the matter of the proposed purchase of the rights of the Hudson River and Albany and Westchester County Railroad Company, and in reply to inform you that the same has been forwarded to the proper authorities for their consideration. I am, Sir, very respectfully,

Wm. Poillon, Esq. Secy.

Dear Sir:-

Replying to your kind favor of the 25th inst., I would say that I think the most satisfactory plan to your Society would be to have their stenographic work done by the folio or page, thus paying only for the actual amount of work done instead of at so much per evening. I would prefer to adopt the former plan myself also, if you think there would be enough matter to report to enable me to earn a dollar per evening, as a minimum, at the rate of 15 cts. per page of written matter, or 50 cts. per page of this size done on the type-writer. I have no type-writer of my own at present, but if I could find enough evening work to warrant it, I should purchase one.

I should be glad to call on you any evening after 4.30 P.M. if you would write me where I can find you after that hour. Trusting to hear from you, if my offer is accepted by your Committee, I remain

Very truly yours

*E. J. Hudson*

The above price includes paper, note-books, etc.

As there is about double the amount of work on a type-written page as one written in ordinary hand, if you would have enough work to warrant my purchasing a machine, there would be no extra expense to you in paying 50 cts. a page, instead of 15 cts.

Dear Sir:-

I am in receipt of your favor of July 21st enclosing a copy of the resolution passed by your Executive Committee, and desire to express my appreciation of your action.

The room intended for this and similar collections, will not be prepared for their reception before about the 10th of August. I will then give you full instructions with regard to the manner of shipment and the freight and insurance. In the meantime, as we are arranging tables and partitions, I would be much obliged to you if you would give me the size of the cases that these coins are in, and whether there are tables with them and any other points that would be valuable for me to be posted on in making proper preparations for their care.

An early response to this will greatly oblige,

Yours Truly,

Sect of Am. Archeological Soc.  
N. Y.

Dear Sir

I enclose an imperfect reprint of a photograph of four antique Persian bronze vases sent from Beyruth in Syria by a Rev Jesuit Missionary to be disposed of for the benefit of his Mission.

Of their date & precise origin he does not appear able to give very definite data; nor am I sufficiently conversant with the archeology of art in that section to venture an opinion.

By their rich workmanship & style they would seem to belong to a period anterior to the Alhambra, if a comparison is permissible between such distant countries. One of them however, the oval vase B, contains the remarkable

peculiarity of representations of wild  
beasts, birdsomen, forbidden by the Koran  
while all have what appears to be inscriptions  
from the Koran & all are <sup>apparently</sup> ~~evidently~~ from  
the same workmen.

They would seem therefore either to  
have been made by <sup>for</sup> a non-mahomedan  
or to antedate Mahomedanism

Please let me know if your society  
would like to acquire the above, the  
price of which is set at \$50 each.  
Should you desire it I will send  
a more perfect photo. the enclose  
being only a reprint from a photo.

Dear Sir

Your special attention is invited to the documents sent herewith,\* relative to the forthcoming American Exhibition to be held in London (1886).

It has been suggested as a prominent feature and one of international interest that the leading Societies of the United States should make use of this opportunity:--

First:-- If possible, to have a meeting in the city of London during the Exhibition.

Secondly:-- To have prepared and sent to the Exhibition such reports, plans, models, or other material illustrating the work of such Society, and also to appoint some member as Commissioner.

Thirdly:-- To pass such resolutions favouring the objects of the Exhibition as may seem best to the Members of the Society which you represent.

I have the honour to be, with respect,

71294 Obituary.

Charles Storrs, a commission merchant, died of erysipelas on Monday at 24 Monroe place, Brooklyn, aged 62. He was born in Mansfield, Conn., and in 1850 took up his residence in Brooklyn. In 1864 he began business as a commission merchant, associating with him his brothers, Augustus and Royal O. Storrs. He retired in 1876 with a fortune. He had a large collection of books and 14,000 acres. He was one of the executors of Horace's large will. In connection with his brother Augustus he some years ago secured the State of New York as the largest land holding in the world, but failed to establish and maintain the Storrs Agricultural School at Mansfield. His funeral will take place this afternoon.

Mr. Zebadiah Ingalls, the founder of the dry goods commission house of Z. Ingalls & Sons, died on Monday night at 127 State st., of Bronchitis 61 years old.

William Barlow lived in his county home at Stanford on Monday at the age of 87 years. He was born at Geneva, in this State. For many years he was a leading merchant in this city. He was a director of the New York Life Insurance Company and a member and Vice-President of the Merchant's National Bank.

The death of Sir Robert Richard Fortson, K. C. M. G., is announced in London. He was long in the public service in England and Australia, and was the author of several books relating to the British colonies.

Garcia Gutierrez, the Spanish dramatic author, is dead.

Dear Sir -

The Library of the University of California has been established on a broad basis, is growing rapidly in numbers and value, and is the center of a literary activity unsurpassed in any other educational institution having an equal clientele.

We take the liberty to intimate that the publications of your Society would be a welcome addition to our department of American History, and we respectfully ask that you will do us the great favor of placing this Library upon your exchange list.

We shall be glad to send you annually our Registers, Reports, and any of our Bulletins and other publications which possess any historical interest.

Very truly yours

NEW-YORK, SATURDAY, OCT. 4, 1884.

**ATHOLE.** On Thursday, Oct. 2, at the residence of J. Howitt, Esq., Rotherham, England, the Rev. GEORGE C. ATHOLE, Rector of the Church of the Holy Innocents, New-York, in the 37th year of his age.  
Interment at Rotherham.

## OBITUARY.

### THE REV. GEORGE C. ATHOLE.

A dispatch has been received in this city announcing the death of the Rev. George C. Athole, Rector of the Church of the Holy Innocents, at Rotherham, England, on Thursday. Mr. Athole left this city in April last, to visit his former home in Scotland, and was in hopes of regaining his health. He grew worse, however, and died Thursday from a complication of diseases.

Mr. Athole was born in Scotland in 1847, where he spent his youth. When a young man he came to this country and entered St. Stephen's College, at Annandale, from which institution he was graduated. He studied theology in the General Theological Seminary in this city, and on graduating began his ministerial career in a mission at One Hundred and Forty-first-street and Eighth-avenue. He worked with this mission until it was organized into the Church of the Holy Innocents. Lots were purchased at One Hundred and Thirty-sixth-street, near Seventh-avenue, and a church edifice erected, which was finished last February. In the new church the congregation has grown rapidly. Mr. Athole was unmarried. He will be buried at Rotherham. He was a clergyman of much promise, and his work in Harlem has been very successful.

My dear Poole,

Please my  
 day in answering your first  
 note, but when I returned  
 from about 2 found such  
 an accumulation of letters  
 that my time has been pretty  
 well taken up since.  
 One of the ladies in  
 St. Louis called at  
 her house, and she  
 wrote to me, saying  
 she had a letter from you  
 and that she had just  
 received it. She said  
 you were all well and  
 that she was very  
 glad to hear of you.  
 She also said that she  
 was very much interested  
 in the cause of the  
 South.

will be happy to see you  
very much. I am  
the same as ever  
and - the same as  
you - same as  
- as you are.

Yours truly

DEPARTMENT OF THE INTERIOR,

## Bureau of Education,

Washington, D. C., October 7, 1884.

Dear Sir:

Two important objects induce me to send this inquiry to you at this date. First, there is great urgency that the Bureau Report of 1875 should be revised, that its statistics and historical portions should be brought up to date and reissued in substance. Second, the New Orleans Exposition furnishes an opportunity to bring forward among the educational agencies the work of the libraries of the country. The time is short; but very few questions are asked in this schedule, and we shall be thankful if you only return what you can promptly, the name, post office address, and number of volumes, etc. You will remember that the Exposition opens the first of November, and our work on the statistics must be completed by the middle of November.

Very respectfully,

JOHN EATON,

Commissioner.

Next Tuesday evening will be the last regular meeting of the Repub. Executive Committee of Bloomfield, and it will be impossible for me to be present at the meeting in New York.

If it were in the afternoon, as before, I would leave business and come over, because that would be only a personal loss; I cannot, however, neglect my political duty.

I should be pleased to know the object of the meeting, and will thank you for any information.

New York. Nov. 18, 1884.

Mr. James Parrott

West American Numismatic &  
Archaeological Society,  
New York,

My dear Sir.

I regret that I am  
under engagements for this  
evening, so that I cannot  
attend, as I wished to do,  
the regular meeting of our  
Society.

I have the pleasure, how-  
ever, of sending to the Society  
as the complimentary contribution  
of them, two cases, filled  
with fac-similes of selected  
Medals and Coins from the

Cabinets of the British  
Museum, are suitably  
arranged and labelled,  
for exhibition, by the  
Messrs Ready, of London,  
and are a fine specimen  
of their art-work.

It is practically impos-  
sible to obtain dupli-  
-cate originals of these  
Coins and Medals and  
therefore, these reproductions,  
absolutely perfect in detail  
and finish, are of the  
greatest value to our

New York Society.

They are a typical selection  
of the finest examples  
of coins and medals,  
for history, for portraiture  
and for the Medallist.

In adding these cases  
to the accumulating  
treasures of our Society,  
I have special pleas-  
ure in announcing  
that I am only specu-  
lating discretionary  
-ing a point with which

I was honored by my  
friend, Mr. Carlos Barranca,  
Consul at the Port of New  
York, from the Argentine  
Republic.

Mr. Barranca is a cathe-  
dron of moral val-  
-ue, and has <sup>felt</sup> ~~taken~~  
much interest in the  
work of our Society.

The only condition he  
makes as to this do-  
nation is that it shall  
be liberally open to

inspection of artists  
and students, and  
also that for more  
general use, and con-  
venience to the pub-  
lic, the cases may  
be taken from the  
rooms of the Society  
for exhibition at schools,  
and at other places  
on occasions, and finally  
likely to afford instruc-  
tion, and to increase

public interest in  
your Society.

Allow me to congratulate  
you upon the steady growth  
of the Society, and to  
hope that our long sim-  
ilar citizen, <sup>abolitionist</sup>  
will give to us a building  
in which to preserve &  
exhibit our Cabinets.

Very truly &c

has been received informing me that  
I <sup>have</sup> been unanimously elected a member  
of the "American Numismatic & Archae-  
ological Society"

It is unnecessary to say that I feel proud  
of the honor the Society has conferred upon me  
not only for the pleasure it will give me  
to be associated with its many distinguished  
and learned members, but by becoming  
one of you it may give me greater facilities  
to continue the study of Numismatology  
— a study which for many years I have  
taken great delight

While I will lose no opportunity which may  
be offered by those older and more experi-  
enced in the study of Numismatics to learn  
I trust as a contributor and active worker

useful member & shall not be found  
wanting

I hereby tender my acceptance of membership  
— ship and thanks for the honor conferred,

Very Respectfully

Dear Sir:

Although very much cramped this fall in money matters, I feel and have before this expressed strong objections to using the permanent fund of our Society for any other <sup>than</sup> the purposes for which its donors intended it.

I therefore send you enclosed check for \$5. towards expense of printing Annual Proceedings of the Soci. Amer. Numis. et Archæol.

Moved by Mr Hewitt seconded and carried that the report be accepted

Moved that it be taken up Section by section for consideration carried unanimously

Resolution No 1. After discussion was on motion unanimously adopted.

Resolution No 2. was on motion divided into two parts it being considered that the latter portion thereof in reference to the expense of postage printing &c. was within the province of the Executive Committee and no resolution was necessary in reference thereto

The first part of the resolution was amended so as to read as follows  
 1 That a committee be appointed at each annual meeting by the President to hold office until the next annual meeting succeeding their appointment to be composed of members not holding any official position to be entitled

the Room Committee.

It shall be the duty of said Committee to arrange special programs for the informal meetings, copies of which they shall mail to every member of the Society a proper time before each of said meetings, and generally to supervise and have charge of said meetings.

It was then adopted unanimously.

The second part referred to Ex. Committee.

Resolution No. 3 was then adopted unanimously.

Resolution No. 4 was then adopted unanimously.

Resolution No. 5. Moved by Mr. [unclear] seconded by Mr. [unclear] that the following be substituted in place of said resolution.

The committee then reported that  
they would not <sup>negotiate</sup> the proposed amendments  
move for the passing of the amendments  
proposed by them to the Constitution  
and presented same to the Executive  
Committee according to the Consti-  
tution and By-Laws.

Report of Committee.

1. Give the present the necessary legal  
following Resolutions and bring them  
them for immediate action.

That the Society room be opened once a month to wit on the second and fourth Wednesdays of each month for informal meetings and the general convenience of the members.

2. That a committee be appointed composed of three members not holding any official position to be called the Room Committee. It shall be the duty of said Committee to arrange special programmes for the informal meetings. Copies of which they shall mail to every member of the Society a proper time before each of said meetings; and generally to supervise and have charge of said meetings. All their necessary expenses for printing and mailing documents and other charges incurred for the said informal meetings shall be a Society expense and paid from the Society fund.

3<sup>rd</sup> That a number bounded by the

Room Committee to ask the members  
wishing them to attend in person  
meetings, and not forget that  
if interest be manifested these efforts  
will be made to interest them.

4 That at each of said in person meetings  
some minutes be given to  
be suggested for discussion or consideration  
or an exhibition of some person's work  
Coins take place to which all the  
members be invited to contribute & some  
paper be read by members who may  
desire to do so and that at every  
<sup>such</sup> meeting ample time be given for  
general and individual conversation.

5 That a committee be appointed to  
endeavor to secure a more convenient  
and pleasant room for the use of the  
Society.

We further recommend for consideration  
at our annual meeting which we find  
is the only time when <sup>they</sup> can be con-  
sidered; and hereby offer for adoption  
at said annual meeting the following  
amendments to be made to the by-

Persons residing in New York City or New York County  
made from the City of New York or New York  
County non-resident members and  
shall be entitled to all the privileges  
New York to all privileges of resident  
members except attendance at the  
regular business meetings and to  
vote or hold office. Such members  
shall however have a right to attend  
informal meetings and to receive  
copies of the publications of the Society.  
Such non-resident members shall pay  
only one half of the regular initiation  
fee and one half of the <sup>regular</sup> dues. They may  
be elected in the same manner as resident  
members and may at any time be-  
come resident members on payment of  
the remainder of the regular initiation  
fee and the regular dues thereafter.

It is further recommended if the above be  
passed that a circular setting forth  
the aims of the Society and the ad-  
vantages of membership therein be  
sent to every newspaper published in the  
Country by the said Room Committee.

~~He also recommended the passage of the following  
and passed it for adoption (11) at the annual meeting  
of the Society held on the 1st of January 1881.~~

~~I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the purchase of a lot of land in the town of New York, and in reply to inform you that the same has been forwarded to the proper authorities for their consideration. I am, Sir, very respectfully,
